Call for Paper(s)

International Journal of Business, Social and Scientific Research (IJBSSR) is an open access, double blind peer reviewed journal that invites outstanding applied and basic research articles in all the fields of Social Sciences, Business and Scientific research. The key objective of this journal is to promote interdisciplinary research from various regions of the globe. IJBSSR is a scientific publication of **Agrofoundation** (a nonprofit NGO) and published based on print (ISSN: 2519-5530) and online (ISSN: 2309-7892).

IJBSSR editorial board makes an objective and quick decision on each manuscript. Following acceptance, a paper would be published in the next available issue.

Declaration

The principal author must declare the originality of the research activities as well as the manuscript (partial/full) in clear statement that the article(s) have not yet been published or submitted for publication elsewhere. The declaration should be made (by signature) in prescribed form. In case of **Online Submission** declaration may be consider as default.

Editor's Note

I am delighted to introduce and welcome the *International Journal of Business, Social and Scientific Research* (IJBSSR), a multidisciplinary peer-reviewed online journal that publishes rigorous theoretical and advanced empirical research in Business, Social and Scientific Research. The key objective of this journal is promoting interdisciplinary collaboration across various regions of the globe. IJBSSR is published in print form (ISSN: 2519-5530) and online (ISSN: 2309-7892). Articles are accepted for publication after double blind peer review. The final evaluation of the revised version is made available at ijbssr.com as soon as it is published. All material published in the IJBSSR can be viewed and downloaded for free at the journal's website.

Our online journal has been successful: we have seen a steady increase in readership, article submissions, and citations to our published articles. Our reputation and visibility in the academic community continues to broaden, and our honorary editorial board constantly reassesses and revises the editorial process to ensure the most efficient and satisfying experience for both authors and staff. The journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. All submitted papers, however, will be subject to the journal's double-blind review process.

On request, we have taken an initiative to upload original research papers which have not been published elsewhere. Interested researchers may also opt to have their works printed in the quarterly research journal soon to be launched. Papers are also invited for publication in our online/printed journal.

A handwritten signature in black ink that reads "Paul B McNulty". The signature is fluid and cursive, with the first name "Paul" and last name "McNulty" clearly distinguishable.

Paul B McNulty
